Dear Dao-huan Chang,

We like to express that we appreciate the way of working together.

The distance China-Netherlands seems to be bridged. Deliveries are on time and the products are as shown and told on your website. Our customers are pleased with your products.

I remember that a machine part was damaged by transport. Your company delivered within a few days new parts (even a spare part) without charging or complaining. Very impressive.

We hope to continue our relationship for a lot of years for successful business.

Kind Regards,

Pluvia Ltd.
